Dear Linda and Marvin,

Pulsor products have made a positive difference in my life.

Six years ago, I was in an auto accident. As a result, I was having extreme headaches from a neck injury and a sinus infection from the impact of my face hitting the steering wheel. The headaches were very much like a migraine. My chiropractor began using a treatment, over a 3 month period, that successfully treated the headaches. She would drape me with a vest and appropriately place small, circular weight-looking pieces. I later discovered that this was a Pulsor treatment. It worked! My migraines and sinus pain began to decrease after each treatment. I was also aware of feeling a state of well being after the treatments.

I was also happy to discover that Pulsor had wearable products for everyday use.

I purchased a Pulsor pendant and the Pulsor card so that I could maintain the same feeling that the Pulsor treatment produced.

I now wear a pendant to help with the EMF issue. My seventeen-year-old daughter wears a pendant, too. I have also "velcroed" part of a Pulsor card directly onto my cell phone. My next purchase will be a Vortex Energy Filter for my home and car since the EMF issue is everywhere in our lives.

Thank you Linda and Marvin for Pulsor.

Best regards,

Catherine Malloy
